

The COLORBOND® steel range of designer colours offers a contemporary palette to enhance the beauty of every home style, within any Australian environment.

Design with the colours of Australia

From the mountains to the outback, from our creek beds to our sand dunes, COLORBOND® steel captures the light and energy that make Australian colours so identifiable.

You'll find 20 inspired colour choices suited to any Australian home and roof – contemporary, traditional, curved, skillion, convex or concave.

Made for Australia

With a durable, baked-on paint finish, COLORBOND® steel resists chipping, peeling and cracking to deliver long life performance with low maintenance. Non-combustible, termite resistant, weather tight[§] and secure, it protects any home against harsh Australian conditions.

Tested and proven for over 45 years

With outstanding anti-corrosion performance, COLORBOND® steel is one of the toughest, most advanced building materials in the world. Tried and tested over the past 45 years in some of the

harshest climates across Australia. So you can be sure COLORBOND® steel not only looks beautiful, but lasts beautifully.

Thermal efficiency for all-year comfort

Every standard colour in the COLORBOND® steel roofing range now includes Thermatech®. Combined with standard installation levels, COLORBOND® steel with Thermatech® solar reflectance technology can help you maintain greater thermal comfort all year round, whilst using less energy.

Warranty

From roofing to guttering, fascia to downpipes, BlueScope Steel offers a range of warranties* for COLORBOND® steel used in a range of various applications. Activate or apply for your pre-approved warranty at bluescopesteel.com.au/warranties.

Lightweight and strong future

Strong and lightweight, steel is well positioned to meet current and emerging environmental and building design regulations and guidelines.

[§]When installed to manufacturers specifications.

*Warranty subject to application and eligibility criteria. For full terms and conditions and to determine the eligibility of your building for the warranty visit www.bluescopesteel.com.au/warranties or call BlueScope Steel on 1800 022 999.

^The COLORBOND® steel colour swatches and images shown in this brochure have been reproduced to represent actual product colours as accurately as possible. However, we recommend checking your chosen colour against an actual sample of the product before purchasing, as varying light conditions and limitations of the printing process may affect colour tones. To determine the most suitable material for your project, please contact your supplier or see www.colorbond.com
